EDUCATION

University of Wisconsin-Madison   Madison, WI

Major: Bachelor of Computer Science   May 2018

PURPOSE STATEMENT: Dedicated and hard-working student seeking an internship in the computer science field where I can apply my education and bring a new perspective to a thriving company.

EXPERIENCE:

Tutto Pasta State Street   Madison, WI

Server   August 2015 – Present (part time during school sessions)
- Created a welcome environment for customers, providing quality service
- Communicate with managers, kitchen, and other server staff
- Manage several tables at once, aiding other staff when free

CodeMash Conference   Sandusky, OH

Volunteer Intern   January 2017
- Proctored speaker sessions, aided in setup, attendee registration, and cleanup
- Attended various speaker sessions, and networked with speakers and attendees
- Session topics: Apple Watch development with Swift, building Internet-connected hardware with Particle, functional programming basics, introduction to Elixir, and app design validation

Wisconsin Engineering Magazine   Madison, WI

Contributing Writer   January 2016 – December 2016
- Proposed articles focused on local and global technological research and advances
- Conducted interviews with researchers, professors, and field professionals
- Worked with editors, photographers, and graphic designers to produce articles on deadline

Premold Corp.   Oconomowoc, WI

Engineering Intern   May 2014 – August 2016 (Summers/Winters)
- Researched materials, equipment, and software for production use
- Conducted tests on production machines, documenting engineering reports in the process
- Assisted project engineers to compile quotes for customers
- Some additional production experience – molding, inserting, finishing, assembly, packaging

OTHER PAST EXPERIENCES/ACTIVITIES:

Boy Scouts of America – *Eagle Scout*   August 2002 - May 2014
